

Bewahren Konstruktion

## ABOUT US

BK Paints, short for **Bewahren Konstruktion** — meaning **“Preserve Construction”** is built on the principle of protecting what you build and preserving what you value. With a strong foundation in German precision and performance, we offer high-performance **waterproofing, surface protection, and construction coatings** engineered for durability in real-world conditions.

At BK, we believe that paint is not just about aesthetics, it's about delivering protection where it matters the most. Every product in our portfolio is backed by rigorous R&D and tested formulations designed to withstand extreme environments, reduce long-term maintenance, and extend the life of structures. Whether it's residential developments, commercial spaces, or large-scale infrastructure, we work closely with architects, contractors, and project owners to provide reliable, problem-solving solutions tailored to each project's demands.

Our commitment goes beyond coatings, we enable smarter construction practices through innovation, technical support, and a solutions-first mindset. With BK Paints, you're not just applying a layer of paint, you're investing in the longevity and integrity of your build.

# WATERPROOFING RANGE

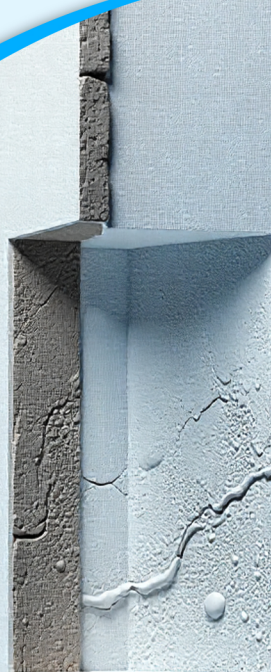

# BK WATERPROOFING BOND

*Bond that holds your **walls together** and keeps **water out**.*

An advanced bonding solution inspired by Italian technology. It **strengthens your walls** internally, **prevents cracks**, and adds **waterproofing properties** that lasts for years.

## Features:

- 🌈 Binds cement and wall material for lasting strength
- 🌈 **High elongation** – resists cracking over time
- 🌈 Improves wall longevity and durability
- 🌈 Can be **mixed with cement, putty**, or used directly as primer
- 🌈 Ideal for both interiors and exteriors

# BK LEAK PROOF ROOF & WALL SEALANT

Reliable **protection** from the top.

A white-colored **elastomeric coating** that forms a flexible layer on **roofs** and walls, stopping water seepage and dampness.

## Features:

- 🌈 Seals and protects against leakage
- 🌈 Prevents dampness on **ceilings** and walls
- 🌈 **UV-resistant** coating
- 🌈 Ideal for terraces, roofs, and parapet walls

# BK TRANSPARENT WATERPROOFING GLUE

Smart **DIY waterproofing** at home.

A ready-to-use **transparent glue** for multi-surface protection. Ideal for quick fixes without changing the surface appearance.

## Features:

- Transparent and easy to apply
- Fills **gaps between tiles**, and joints
- Works as a **crack filler** and surface sealant
- Weather-resistant and flexible
- DIY-friendly, perfect for quick repairs

**SOLAR  
REFLECTIVE  
PAINT**

# BK SOLAR REFLECTIVE COAT

*Reduces heat. **Protects your roof.** Saves energy.*

A high-performance coating designed to **reflect sunlight** and **reduce surface temperature**. Perfect for rooftops and exposed terraces, this coat improves comfort inside buildings and extends roof life.

## **Features:**

- 🌈 Reflects sunlight with **high SRI** (Solar Reflectance Index)
- 🌈 Lowers indoor temperatures and AC usage
- 🌈 Protects against **UV damage** and **weathering**
- 🌈 White coating suitable for concrete, terraces, and industrial roofs
- 🌈 **Long-lasting film** that resists dust and dirt buildup

The background is a highly detailed, ornate wall. It features a large, arched frame in the center, flanked by two vertical columns. The wall is covered in intricate carvings and moldings, giving it a classical or baroque appearance. The color is a warm, golden-brown. The text "TEXTURE PAINT RANGE" is centered within the arched frame.

# TEXTURE PAINT RANGE

# BK TEXTURE PAINTS

## ITALIAN STONE FINISH

***Luxury you can feel.** Texture that lives through time.*

There are walls that simply enclose and then there are walls that carry a story. Stories of hand-carved arches, sunlit courtyards, and surfaces that have felt the passage of time. **BK Texture Paints** are created for those who seek that story, not in words, but in the way light falls on textured stone, or the **quiet richness** of **earth-toned elegance**.

Made with a refined sand-based formula, this finish is for homes and spaces that don't shout to impress — they breathe, they settle, they stay.

## WHITE BEIGE COLOUR

*Inspired by the **hand-sculpted limestone** villas of Italy.*

This gentle, sophisticated shade recalls the aged elegance of European manor walls, cool to the touch, but warm in character. It's ideal for minimal, graceful interiors where texture is felt more than seen. A tone that speaks of restraint, refinement, and balance.

## LIGHT GOLDEN BISCUIT SHADE

*Inspired by **warm Italian countryside** facades.*

Soft, muted, and timeless, this tone carries the essence of lived-in beauty. It suits interiors that favor subtlety over statement, evoking the charm of aging plaster and quiet elegance. A shade that doesn't demand attention but naturally earns it.

## GOLDEN BISCUIT SHADE

*Rooted in the courtyards of Rajasthan's desert estates.*

Rich and sun-kissed, this shade captures the beauty of traditional haveli walls, baked by sun, smoothed by time. It brings an earthen charm to exteriors, offering the strength of stone and the glow of stories carried through generations. Perfect for heritage-inspired spaces that stand bold yet graceful.
